Notice of Supplemental Office Action

This supplemental Office action replaces the action mailed 11/17/2009 in its entirety. This Office action corrects the improper claim numbering of original claims 209-263.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Knoble on November 9, 2009.

Cancel claims 64-68, 70-86, 91-103, and 105-109.

Renumber claims 209-263 as 208-262.

Allowable Subject Matter

2. Claims 63, 69, 87-90, 110, 112, 113, 115, 116, 118-120, 188-207, and 208-262 are allowed.

3. The following is an examiner's statement of reasons for allowance:

The prior art, Postrel, discloses a method of operating an electronic barter system that includes a first user listing items on the barter system, the barter system determining and awarding the first user an amount of barter credit for the listed item, the

barter system identifying at least one item listed on the system that may be desirable to the first user, the first user selecting a desired item via the barter system, the barter system permitting a portion of the barter credit of the first user to be used toward acquisition of the desired item, wherein the other user selling the item to the first user is not required to acquire any item from the first user and the barter system sending a request to the other user that listed the item to surrender the item.

In accordance with the decision rendered by the Board of Patent Appeals on August 7, 2009, the prior art fails to disclose consumer to consumer transactions in the system or the system identifying an item that has been listed by other consumer users that may be desirable to a first consumer user.

The limitations lacking in the prior art, in combination with the other limitations clearly claimed for patent, are novel and unobvious.

Conclusion

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to CHRISTOPHER R. BUCHANAN whose telephone
